

## JENKINS IS RELEASED FROM PUEBLA PRISON

Conflicting Reports Raise Doubt as to Whether  
He Was Freed Unconditionally as Result  
of U. S. Warning or Simply on Bail

## SENATORS CONFER WITH WILSON

Find President in Touch With Recent Develop-  
ments and Keen Enough to Form Judgment  
On Mexican Crisis, Which Executive  
Promises He Will Do Shortly

Washington, Dec. 5.—William O. Jenkins, the American consul-  
ar agent imprisoned at Puebla, Mexico, was released Thursday night.  
The American embassy in Mexico City reported his release in an  
official dispatch received by the state department this afternoon and  
almost at the same time news dispatches were received from Mexico  
City which said a check of \$500 had been deposited with the civil au-  
thorities at Puebla.

This difference in the two reports seems to raise some doubt as  
to whether Jenkins was released unconditionally on the diplomatic  
representations of the United States government, or whether he had  
been released on bail, as the Mexican authorities have contended he  
could be. The state department, however, took the view that Jenkins  
had been released on its diplomatic representations.

**Bail Reported Paid.**

Every effort was made here today  
to check up on a cable report from  
Mexico City saying that according to  
a Puebla dispatch to a Mexico City  
newspaper Jenkins was released after  
J. Salter Hansen had deposited a \$500  
check for bail. Officials of the state  
department said they had no informa-  
tion whatever concerning Hansen or  
the question of bail, and that they  
did not know Hansen. They stood on  
the statement that the consular agent  
had been released on demand of this gov-  
ernment.

In some quarters, however, there  
was a suggestion that there may have  
been a confusion of names, as Secre-  
tary Lansing announced that a dis-  
patch from the American embassy  
said Third Assistant Secretary Mat-  
thew E. Hanna had been sent to Pu-  
eblo in connection with representations  
for release of Jenkins. Officials de-  
clared, however, that even if the  
names had been confused there was  
no information here to indicate that  
Hanna had put up bond, and in fact  
they expressed utmost assurance that  
he had not done so.

Reports from Jenkins since his ar-  
rest and personal letters to his rela-  
tives in this country have all quoted  
him as being most determined not to  
put up a cent of bail in order to ob-  
tain his release. This fact was cited  
by officials to support their contention  
that the release of the consular agent  
was brought about by urgent diplo-  
matic representations made by this  
government and the resulting inves-  
tigation made by General Gonzalez,  
who was sent to investigate the facts  
in the case.

**Strain Is Relieved.**

News of the release of Jenkins was  
given varying interpretations in of-  
ficial and congressional circles. State  
department officials had no comment  
to make upon it in the absence of  
more detailed information, but Sena-  
tor Hitchcock and other Democrats  
in congress declared it seemed to re-  
lieve the strain that had been placed  
upon relations with Mexico, and to  
clear up their position that the senate  
and house should keep hands off un-  
til the state department had had an  
opportunity to determine whether  
Caranza would heed his warning in  
regard to American citizens and their  
rights.

A break in diplomatic relations.  
Senator Hitchcock argued, might give  
Caranza an excuse for setting aside  
the coming presidential election and  
assuming a dictatorship.

Senator Fall, and other Republicans,  
said they hoped that the outcome of  
the Jenkins incident meant that Car-  
anza had determined to adopt a new  
policy toward American interests, but  
pointed out that other grievances still  
existed. Much significance is attached  
to Senator Fall to the evidence re-  
garding alleged radical propaganda by  
Mexicans in the United States and he  
said he would lay before the President  
the photostatic copies of letters by  
Mexican officials endorsing such a  
campaign. One of these letters, he  
said, was signed by President Car-  
anza.

Washington, Dec. 5.—Two sena-  
tors delegated by the foreign rela-  
tions committee to confer with Presi-  
dent Wilson on the Mexican crisis and  
report whether in their opinion the  
President by reason of his illness was  
able to exercise his functions, left  
the White House after a conference of  
one hour with him this morning  
saying that he was in touch with re-  
cent developments and was mentally  
keen enough to form judgment on the  
question confronting the nation.

In the midst of the conference, while  
Senator Fall, Republican of New Mex-  
ico, was outlining the evidence on  
which he was making a break of diplo-  
matic relations the President and his  
cabinet were informed that William

that diplomatic recognition of Car-  
anza be withdrawn. This resolution  
now is before the foreign relations  
committee, which meets again Monday  
to act upon it. It was said the Presi-  
dent expressed no final judgment re-  
garding it, but indicated he would give  
his advice to the committee or to con-  
gress by the end of the week.

When he returned to the capitol,  
Senator Fall was surrounded by his  
Republican colleagues, who sought  
news of the conference. He also saw  
Henry P. Fletcher, American ambas-  
sador to Mexico, and sent to the  
White House an abstract of the result  
of the sub-committee's investigation,  
requested by the President. He had  
indicated he might make this public  
tonight, but decided not to do so for  
the present.

**Whole Conference Friendly.**

Much of the substance of this ab-  
stract, it was said, was given to the  
President today by Senator Fall, who  
did most of the talking. The whole  
conference was declared to have been  
of the most friendly nature, the Presi-  
dent closing it with a story about an  
Irishman who, when asked whether  
he thought the United States would  
take Mexico, replied: "I think we  
will. It's so contagious to us."

At another point, when jests were  
being exchanged about the President's  
health, Mr. Wilson was said to have  
referred to the statement made in a  
letter by Senator Moses, Republican,  
of New Hampshire, that the execu-  
tive was reported to have a brain  
lesion.

"The President remarked," said  
Senator Fall, "that as a result of the  
conference he hoped the Senator  
would be reassured, although he  
might be disappointed."

Senator Fall gave a detailed ac-  
count of the White House visit. He  
said Dr. Grayson received them and  
took them up to the President's bed-  
room, where Mrs. Wilson shook hands  
with each senator.

"Then the President shook hands  
with each of us," Senator Fall con-  
tinued. "He was lying in bed, flat on  
his back. His shoulders were propped  
up slightly. His bed was in a shaded  
portion of the room. He greeted us  
pleasantly and while his articulation  
seemed somewhat thick, during the  
entire conference I could understand  
perfectly every word he said."

"He was covered up to the chin,  
with his right arm out. I sat a little  
to one side and slightly below him,  
near a table, and he frequently turned  
his head to talk to me. He also re-  
ached over to the table several times  
to secure papers on it."

**President Appeared Well.**

Asked regarding the President's  
physical appearance, Senator Fall  
said he was "not an expert" but would  
not judge that the executive had lost  
any weight. He said that Senator  
Hitchcock opened the discussion by  
stating that he personally had nothing  
to present but accompanied Senator  
Fall, who desired to submit some in-  
formation.

"I told the President that I didn't  
care to fatigue him," said Mr. Fall. "I  
sketched, as rapidly as possible, the  
work done by our sub-committee and  
gave him, hastily, some of the reasons  
why I thought this government should  
break off relations with Mexico."

"I asked him if he had a copy of  
my resolution, and he reached over  
on the table and picked up a copy.  
The President asked me if I would  
give him a memorandum in writing  
covering my statement, and I agreed  
to send it to him at once. He asked  
many questions and displayed a gen-  
eral knowledge of conditions, recent  
as well as past. He indicated perfect  
comprehension of the points I was  
making."

"I told him that I desired to assure  
him of my desire to co-operate with  
him in Mexican matters as far as I  
consistently could. He picked up  
the copy of my resolution and asked,  
'I suppose you want to have me give  
some opinion on this?'"

"I said that was the purpose, and he  
then asked if I would supply him with  
the written memorandum. He said  
he was much interested and would  
give it his careful attention. He didn't  
say when or how he would commu-  
nicate with us."

"The President seemed generally  
familiar with Mexican affairs but said  
he did not know the details."

**Report Still Incomplete.**

Mr. Wilson according to Senator  
Fall, had an idea that the sub-com-  
mittee's report was in readiness, and  
Mr. Fall explained that the inquiry  
probably would not be completed for  
several months and that a report was  
improbable before next June.

Asked directly if he was satisfied  
with the President's condition and his  
ability to handle the Mexican situa-  
tion, Senator Fall countered:

"Do you mean his mental condi-  
tion?"

"Yes, sir," he replied, "entirely so."  
Senator Hitchcock, who told the  
same story of the conference, said the  
President had seemed in a very cheer-  
ful mood and decidedly on the mend.  
His color was good, he said, and his  
facial appearance normal. Although  
he had not seen Secretary Lansing  
since he became ill, the senator said,  
Mr. Wilson had seen other members  
of his cabinet and was doing an in-  
creasing amount of work daily.

After the conference, Dr. Grayson  
said the visit apparently had done  
the President good and that he seemed  
to have enjoyed it. The physician ad-  
ded that he had arranged for his  
patient to remain in bed for the con-  
ference because he had been up for  
some time during the morning and it  
was desired to guard against tire-

## TRAIN SERVICE IS CURTAILED TO SAVE COAL

Whole Country Strug-  
gles Under Drastic Re-  
strictions Imposed

## MARTIAL LAW INVOKED

Entire Oklahoma National Guard  
Ordered on Duty to Occupy  
States Coal Fields

Chicago, Dec. 5.—Virtually the en-  
tire country was struggling tonight to  
make the best of more abnormal con-  
ditions than prevailed during the war  
as a result of the drastic measures be-  
ing prescribed daily to counteract par-  
tially the prolonged strike of miners  
in the bituminous coal fields.

Tonight the situation could be sum-  
marized as follows:

Federal Fuel Administrator Garfield  
indicated that coal production was in-  
creasing over last week.

Orders for further curtailment in  
train service were issued, with sus-  
pension for the first time in its his-  
tory of the famous Twentieth Century  
Limited between New York and Chi-  
cago. Approximately 150 other spe-  
cial in the eastern region also will  
be affected, beginning next Wednes-  
day.

New York city was included in the  
restricted area today when heat was  
turned off in the subway, elevated and  
surface cars during rush hours, and in  
cabins on some of the ferryboats.  
Theatre signs also were darkened.

**Change in Attitude by Miners.**

Reports from the Pittsburgh, Pa.,  
district indicated that many miners  
there had expressed to their employers  
a desire to resume work, while word  
was received from Richard J. Hop-  
kins, attorney general of Kansas, that  
he believed the coal diggers in that  
state would break away from the lead-  
ership of President Howat, of District  
No. 14 of the Mine Workers.

Texas was endeavoring to overcome  
the situation by getting all available  
fire and cord wood.

Six counties in Oklahoma were  
placed under military rule, and Gov-  
ernor Robertson has ordered on duty  
the entire National Guard organiza-  
tion to occupy the coal fields.

Governor Lowden of Illinois an-  
nounced that the state would make no  
effort to run the mines at present, as  
it would be almost murder to send in-  
experienced men into the deep pits.

Tennessee operators and miners  
have been called by Governor Roberts  
to meet in Knoxville Saturday to con-  
sider steps to end the strike without  
seizure of the mines.

**Chicago Restrictions in Effect.**

State operation of the Kansas sur-  
face mines continued today with vol-  
unteers taking coal from 12 pits in a  
drizzling rain.

While the general restrictions were  
ordered for Chicago yesterday, the  
full effect was not felt until today.  
The public utilities commission revised  
its orders and beginning Monday re-  
tail stores will have their doors open  
only from noon until 6 p. m. and 9 p.  
m. on Saturday night. It was an-  
nounced that a four-hour day might  
become necessary.

The mayor of Cheyenne, Wyo.,  
ordered the domestic and industrial life  
of that city placed on a conservative  
basis.

Efforts in Michigan and Iowa to re-  
sume work in the mines were in vain,  
with the miners' representatives  
standing pat.

Ten thousand idle miners in West  
Virginia were urged by a convention  
of delegates from sub-district No. 3  
to accept the government's offer of a  
14 per cent increase.

The Southern regional director has  
ordered a general curtailment of pas-  
senger train service in the South, ef-  
fective Tuesday.

After a conference today with op-  
erators and miners' officials, Governor  
Cox of Ohio declared that he consid-  
ered the prospects for a settlement  
of the walk-out good. It was under-  
stood that the executive proposed an  
increase to the miners of approxi-  
mately 25 per cent. The conference  
will convene again Monday.

**Soldiers to Coal Fields.**

Soldiers from Camp Lewis are en-  
route to the coal fields of Montana  
for emergency purposes.

A majority of the union miners in  
Missouri today refused Governor  
Gardner's offer to return to work at  
a 14 per cent increase and prepara-  
tions were being completed tonight to  
put volunteer labor in the Barton  
county surface mines tomorrow.

Members of the Illinois Manufac-  
turers' association have begun a boy-  
cott of clothing, food, fuel and other  
necessities against the striking miners  
of the state.

With the towns and cities in South-  
ern Illinois affected today by the re-  
strictions issued by the Public Utili-  
ties commission, operators and miners  
announced they could see no immedi-  
ate end to the strike.

Subsistence in the situation were.  
The Rev. Hargis, pastor of the  
Methodist Episcopal church at Hous-  
ton, Mo., with members of his con-  
gregation, dug 50 bushels of coal so  
that services might be held.

## TWO NOTORIOUS "REDS" AWAIT DEPORTATION

Alexander Berkman and  
Emma Goldman Now  
at Ellis Island

## THEIR COUNSEL ACTIVE

Secures Writs of Habeas Corpus  
For Pair, Which May Delay  
Their Departure

New York, Dec. 5.—Alexander  
Berkman and Emma Goldman, Ameri-  
ca's two most notorious anarchists,  
spent tonight at Ellis Island. They  
were surrendered to the immigration  
authorities at noon upon demand of  
the department of labor, to await  
deportation to Russia after preaching  
their doctrines in the United States  
for 30 years.

Ordered deported for urging over-  
throw of the government by force, they  
were taken by ferry from the tip  
end of Manhattan to the immigration  
station at Ellis Island, where they will  
be held until a ship is available to  
send them to Russia, whence they  
came. Their liberty on bail expired  
when they were surrendered by their  
counsel at the demand of the depart-  
ment of labor. Berkman's career in  
America came to an end while Henry  
Clay Frick, whom he once attempted  
to assassinate, was being buried in  
Pittsburgh.

A stone's throw from the Statue of  
Liberty, the most notorious anarchists  
in this country probably will spend  
their remaining days in the United  
States, of which Berkman never be-  
came a citizen.

**Attempts to Stay Deportation.**

While they were on their way to the  
island, accompanied on the govern-  
ment's ferry boat by a few of their  
most devoted followers, their counsel,  
Harry Weinberger, was appearing be-  
fore Federal Judge Mayer with a pe-  
tition for writs of habeas corpus in a  
last effort to nullify the deportation  
decrees. The writs were granted and  
are returnable Monday.

Weinberger said that he would in-  
sist that his clients be produced in  
court before Judge Mayer, who sen-  
tenced them to two-year terms for ob-  
structing the draft law.

There was no way of determining  
tonight whether or not the legal pro-  
ceedings would delay the departure  
of Berkman and Miss Goldman for  
Russia.

The habeas corpus petition was  
based upon the contention that Miss  
Goldman is an American citizen by  
marriage, that the constitutional right  
of free speech has brought within the  
pale of the law any radical utterances  
they may have made, and that depor-  
tation to Soviet Russia would be il-  
legal because the United States has  
not recognized the Bolsheviks.

**Held at Ellis Island.**

Meanwhile, Berkman and Miss  
Goldman will be held at Ellis Island  
with 82 other radicals awaiting de-  
portation. After they were surren-  
dered today, searched and inspected by  
doctors, Berkman was put in a room  
with seven ring-leaders of the recent  
hunger and silence strike against  
deportation hearings, while Miss Gold-  
man was sent to the quarters of two  
girl anarchists who had participated  
in the hunger strike.

Miss Goldman's "farewell" message  
to her followers was:

"Love and comradeship to all lib-  
eral and revolutionary people. We  
expect to be called back to Soviet  
America."

"I am going to fight against depor-  
tation," declared Miss Goldman. "On  
the ground that I am a citizen. If I  
am deported it will affect thousands  
of foreign born American citizens. My  
deportation is a club to break the mil-  
litant labor movement."

They boarded the ferryboat at 11  
o'clock. Miss Goldman wore gold  
rimmed spectacles and a set of furs  
over a tailored suit. Berkman wore a  
flowing black tie, a dark suit and  
heavy tortoise shell spectacles. Berk-  
man also had several suit cases filled  
with clothing purchased in Brooklyn  
yesterday in anticipation of his depor-  
tation.

**Berkman Predicts Revolution in U. S.**

Berkman predicted a revolution in  
the United States within five years and  
said he did not mind being deported  
so long as he was sent to Soviet Rus-  
sia. Both Berkman and Miss Gold-  
man appeared to be in a jovial frame  
of mind. Six young women who ac-  
companied them on the boat to the  
island kissed Miss Goldman repeatedly  
on the trip and also kissed Berkman  
while he was waiting to be called into  
the ante room of the administration  
building on Ellis Island.

Miss Goldman also predicted a revo-  
lution in this country, but added that  
she would not call it a danger, but a  
working out of evolution and a bless-  
ing.

"The great change will come," she  
said, "when the government takes ac-  
tional action against those working for  
progress. The United States is now  
doing the very things that the czar  
did before the people overthrew his  
regime in Russia."

Miss Goldman declared that she  
had great faith in the American peo-

## ATTORNEY C. E. HOLMES IS INSTANTLY KILLED

In Motor Car Accident Near Milford Village at  
About 10 O'clock Last Evening When  
Automobile Skidded

## Everett B. Holmes Slightly Injured

Two Attorneys Were Returning from Attend-  
ance at Trial of Sheldon Case at Coopers-  
town—City in Gloom

Clarence E. Holmes esq., one of the best known of Otsego coun-  
ty's attorneys, was probably instantly killed and his nephew and  
business associate, Attorney Everett B. Holmes, was painfully but it  
is hoped not seriously injured last evening at about 10 o'clock, when  
the motor car in which they were returning from Cooperstown, where  
they had been engaged all day in the trial of a case, skidded and  
shot up an embankment, finally overturning near the crest of the  
steep grade above the Jay Colburn farm, now known as the Cobb  
farm, nearly a mile north of the village of Milford. News of the  
shocking accident was received with universal expressions of deep  
regret in this city where both are well known and highly regarded.

The two men were the sole occu-  
pants of the car, the Overland roadster  
of Everett B., who was at the wheel.  
No one saw the accident and the  
driver was too overcome by the shock  
to be interviewed last evening. They  
were moving, it is confidently believ-  
ed, moderately, when the car appar-  
ently skidded upon the slippery and  
icy concrete surface and shot up the  
embankment at their right, overturn-  
ing to their left upon the hard sur-  
face of the road. Both were pinned  
beneath the car. The first person to  
reach the scene was Harvey Bump,  
who was driving a horse attached to  
a buggy toward Milford. He was un-  
able to extricate the unfortunate men  
and his cries for help aroused Henry  
P. Bradley, who lives just above the  
scene, and Charles Cobb, residing just  
below.

They reached the spot at about the  
same time that the car of H. W. Shel-  
don, in which with Mr. Sheldon were  
his driver, Frank Kilpatrick, County  
Judge U. G. Welch of Edmeston and  
Attorney Frank C. Huntington of this  
city, who also were returning from  
court, arrived. The Otsego party as-  
sisted by the others managed to lift  
the front end and release the younger  
of the two men who was conscious  
and able to talk to them. He was  
pulled through the frame of the  
windshield, the glass of which was  
broken. He was curled about the  
driving column, but was apparently  
not critically injured. They found  
Clarence E. was pinned under the  
overturned car, on the hard roadway,  
with his head free. The car was  
lifted. It was at first thought that he  
showed signs of life, but when the  
body was entirely free no traces of  
pulse or life could be found. Dr. Bee-  
ber, who reached the scene quickly,  
said that his life had been crushed  
out. At this writing no details as to  
the exact nature of his bodily injuries  
are available; although it is stated

ple, especially the younger genera-  
tion."

**Government to Contest Proceedings.**

Washington, Dec. 5.—The govern-  
ment will contest the habeas corpus  
proceedings in New York instituted  
with the purpose of preventing the  
deportation of Alexander Berkman  
and Emma Goldman, it was said to-  
day by Anthony Caminetti, commis-  
sioner general of immigration. He  
expressed confidence that it can sup-  
port its deportation order.

Mr. Caminetti at the same time  
made public a telegram he sent today  
to Harry Weinberger, counsel for the  
anarchists, in which he denied that  
the immigration bureau had ruled that  
it would permit the family of a de-  
ported alien to accompany him.

"In answer to your question," said  
the telegram, "the bureau stated that  
if you had a client ordered deported  
to Russia who had a family, sugges-  
tion of permitting family to accom-  
pany him would be considered if pre-  
sented, but bureau did not decide  
the question in advance and does not  
say it will permit family to accom-  
pany deported alien. I have given  
this message to the press since you  
seem to have given out for publica-  
tion an erroneous statement."

## N. Y. FRIGHTENED WHEN SEWER GAS EXPLODES

Blue Flames Leap High Above  
Pavement, Throwing Theatre-  
goers Into Panic

New York, Dec. 5.—The White  
Light district was thrown into a panic,  
office buildings were shaken and dam-  
aged, and hundreds of windows in the  
neighborhood were shattered when a  
series of sewer gas explosions to-  
night blew the top off more than a  
score of manholes, sending blue flames  
leaping high above the pavement for  
blocks. The damage in broken glass  
alone was estimated by Fire Chief  
Kenyon at \$75,000.

The explosion occurred as hundreds  
of theatre-goers were on their way to  
evening performances, and police re-  
serves had to be summoned to control  
the frightened crowds. Electric power  
was cut off from all buildings within a  
radius of several blocks, extinguish-  
ing all lights.

The blast, which continued for  
nearly an hour, caused great confusion  
in the district and many persons  
believed that an earthquake had oc-  
curred. In several places, wide-  
cracks appeared in the pavement.

Shortly following the first explosion,  
the six-day Meric race at Madison  
Square Garden was halted when the  
fire department ordered the lights ex-  
tinguished as a precautionary meas-  
ure. The thousands of spectators fled  
quietly from the building.

Many persons had narrow escapes  
from serious injury as shattered glass  
and materials from shaken buildings  
rained into the streets. Several peo-  
ple were struck by glass and were  
taken to hospitals for treatment.

Carloads of sand were used to ex-  
tinguish the blue flames from escap-  
ing gas in the sewers. The sand was  
poured down the manholes until the  
flames were out.

### NEWBERRY DEFENSE MARSHALS FORCES

Defendants Mute When Arraigned,  
Leaving Way Open For  
Motion to Quash Indictment

Grand Rapids, Mich., Dec. 4. — With arrival here today of the vanguard of the army of attorneys expected to take part in the proceedings, there were indications of probable turns the legal battle may take when the 135 men indicted in connection with the alleged illegal nomination and election of Truman H. Newberry to the United States senate are brought to trial.

A motion for a separate trial will be made on behalf of Christian A. Beck of Muskegon county, prosecuting attorney and one of the defendants, it was announced by his attorney Colonel P. Campbell.

Another probable move by the defense was hinted at by State Senator Leonard Verdier, counsel for former State Treasurer O'Dell and State Senators Deland and Ryan. Mr. Verdier, in explaining the motive of so many respondents in standing mute when arraigned, pointed out that by doing so the defendant waives no rights and leaves the way open for a motion to quash the indictment.

Senator Newberry was today advised that he will be admitted to \$10,000 bail. The Senator, it is believed, will not come to Grand Rapids for arraignment until next Monday, the date set for the hearing. His brother, John S. Newberry, Paul H. King, Allen A. Templeton, and B. Frank Emery, all of Detroit, also will be asked to give \$10,000 bond, it was announced. Bail for the other defendants ranges from \$5,000 down to \$1,000.

Twenty-five of those indicted appeared in federal court for arraignment today and pleaded not guilty or stood mute.

MAKERS OF SCOTT'S EMULSION

Henry C. Frick, whose wealth is estimated by Wall street at between 150 and 160 millions, and who died suddenly at his home in New York city on Fifth avenue, was a millionaire before he was 30 through backing his judgment in buying coaling coal lands when others sold out during the panic of '73. He formed a partnership with Carnegie and was an associate of Cassatt of the Pennsylvania and the late E. H. Harriman of the Union Pacific. His home on the site of the old Lenox library, extending from Seventieth to Seventy-first, was estimated worth five millions and his art collection estimated at 30 millions, he is said to have bequeathed to the city of New York. During the homestead strike he was attacked and dangerously wounded by an anarchist.

### GOVERNMENT'S SUGAR CONTROL SOON TO END

Attorney General Palmer Announces, However, That War On Profiteers Will Continue

Washington, Dec. 5. — The government will not attempt to control the distribution and sale of sugar after the Sugar Equalization Board is dissolved December 31.

Attorney General Palmer, in making this announcement, asserted that as no funds had been provided by congress for carrying on the work of handling sugar, the department of justice would confine its efforts to the punishment of profiteers.

In explaining the abandonment of the program for defeating the sugar shortage, Mr. Palmer said he had put the proposition up to congress as he lacked "both the power and the facilities" for obtaining tangible results. After officials had outlined plans for a continuance of the control under supervision of the department of justice, he said, the necessary funds and authority were not forthcoming.

Mr. Palmer's action was generally accepted as opening up the sources of sugar supplies by permitting refiners to pay more for the Cuban raw stock. It also was believed to mean that sugar prices would soar. The department will continue to hunt down profiteers, but without means of checking up on the cost to the refiner or without control of the price at which the supplies come into this country. It is believed domestic consumers would be forced to pay high prices after January 1.

### WILD TRADING IN SOUTHERN PACIFIC

Government's Decision to Abide  
by Court Decree in Oil Land  
Case, Causes Flurry

New York, Dec. 5. — Announcement that the government had decided to abide by the decrees of the lower courts in one of the long-pending Southern Pacific oil land cases was the outstanding feature of today's professional and irregular stock market.

The news, which preceded the opening of the session, was followed by wild trading in Southern Pacific at an extreme rise of 14 points to 109, the convertible 5 per cent bonds rising 8½ points and associated oil, a Southern Pacific property, 15 points.

Many other stocks were favorably influenced by the bulge in these issues, but the advance lost much of its force before noon, when exchange on London and Paris dropped to new points of discount.

During the intermediate period, the market drifted without definite trend, the collapse of exchange, fresh uncertainties in the threatened coal famine, and the Mexican crisis, provoking renewed pressure from the shorts.

Rallies of the last hour were featured by Motors and the principal food shares, reinforced almost at the end by the greater strength of United States Steel and violent advances in Mexican and Pan-American Petroleum, the oils gaining 5 points each, while General Motors retrieved the better part of its severe loss.

Sales amounted to 1,050,000 shares. There was no material change in the easier local monetary situation, but heavy exports of gold to South and Central American points were accepted by banking interests as prelude to an extensive outflow of the metal to those countries.

Bond dealers reported a better demand for investment issues, but this was not apparent in the dealings on the exchange, where heavy transactions in Liberty and Victory bonds were again showing irregularity. Total sales, par value, aggregated \$22,400,000.

Old United States bonds were unchanged on call.

COUNTY AND CITY MATTERS

**The Mud Tax and the Farmer.**

The assertion recently made that the heaviest tax which the farmer has to pay is the mud tax is coming more and more to be recognized and acknowledged. By it is meant the added expense which comes to him whenever he finds necessity, either for business or pleasure, with his family or a load of hay or grain or potatoes or pork or other farm products, of coming to town or city. The weight which can be transported is one feature, since certainly there is advantage in time and labor when two trips will draw as much as three draw now. Another is the damage done to wagon or auto, or even the faster wearing out of the team if horse-propelled vehicles are used. Take them together and in the course of the year, lost time and vehicle repairs or replacement make a pretty substantial mud tax.

**How It Can Be Reduced.**

One method whereby to a large extent this annual drain on the resources of the farmer can be reduced is unquestionably by means of better roads, such as by the resolution yesterday introduced in the board of supervisors it is proposed to construct. The main arteries of travel between the larger towns and along the principal valleys have or will eventually be taken care of by the magnificent system of state highways. But there are many laterals of sufficient importance to become parts of the state system, which none the less are vital to the farmers residing along their courses. These roads, not all at once, but a few miles each year, it is proposed to construct with the end in view that within a reasonable interval of time every farm, if not upon, will at least be in easy access to these town roads and through them to the state highways.

This is the plan of the County Improvement association, and it is believed that it will meet the approval of the board of supervisors. A few dollars on the thousand paid each year will supply these roads, not all at once, but in the course of a dozen years, and in the meantime the increased value of farm property will perceptibly reduce the tax levy for these improvements.

We are out to make Otsego the best county in the state to live in. One important step toward that end is to have better roads. The accomplishment of this is confidently looked for.

**The Woman of the Farm**

There was no feature of the meeting of the Joint Farm Bureau and Home Economics clubs in Oneonta Thursday of more importance than the address of Dr. Ruby Green Smith, which at some point after all of inadequate length was reported in these columns yesterday. It was her purpose to call to mind the fact that the one underpaid person in the rural districts was the woman of the household, who labored longer hours than anybody else, had what with the care of the home the important one of the care of the children, and in fact had less than any one else of recreation, and often practically nothing in the way of monetary compensation therefor. It was such an address as could not fail to set farmers a-thinking, and perhaps would give them a different angle when they bemoan the fact that women more often perhaps than men are anxious to exchange country for city life. It is not a pleasant or profitable thing to toil more hours than anybody else, accept as great or greater responsibility and get nothing much for it either in the way of money or of vacation periods for rest or recreation. Woman, who now votes, is coming, and rightly, to demand also her rights in other ways than the suffrage.

**And From Another Viewpoint.**

Nor is there any doubt that, while the farmer has for his work most of the modern improvements such things as the tractor, the sulky plow, the mowing machine and the reaper and binder, hay rake and barn fork, the silo cutter, the hay carrier and other conveniences on his farm and in his stables, the house is often the last thing thought of. There are plenty of things which could be secured to lighten the labor of the housewife, power washing machines, dish washers, running hot and cold water, bath rooms and practically all the modern conveniences, furnaces and often electric lights.

If the wife yearns, therefore for city or village, often it is not from desire to become part of a larger community but rather from knowledge that her sister or cousin in the town has work and also life made easier for her in many ways that she has not herself been able to attain. Keeping the best people on the farm should not be so very difficult if the conveniences of city life should be, as often they can, brought to the country.

**Officers of St. James' Society.**

At a meeting of the congregation of St. James' Protestant Episcopal church, held recently, S. S. Matteson was re-elected warden for a period of two years and L. D. Van Woert, William H. Lynch and Earle W. Anhalt vestrymen for a term of three years.

## FAIRCHILD FOR CONGRESS

NUMEROUS FRIENDS IN DISTRICT ACTIVELY URGED RENOMINATION OF FORMER REPRESENTATIVE.

Conceded Ability, Long Experience and Excellent Judgment Make Him Logical Candidate — Otsego and Other Counties Would Give Hearty Support Should He Decide to Make Canvass — Congressman Hill Announces That He Will Not Be Candidate.

The announcement which was made by Hon. William H. Hill on Thursday to the effect that he would not be a candidate for the nomination for United States senator, was followed yesterday by a second statement, that he would retire from congress at the end of his present term. It is understood that this decision was based on the fact that he has large personal interests at Johnson City requiring his attention, and that he believes that his usefulness and personal comfort will be best subserved by remaining at home.

The above announcement by Mr. Hill has already resulted in a movement on the part of many friends of Hon. George W. Fairchild looking to his renomination, should he consent after due deliberation again to be a candidate. While no definite statement could be obtained last evening from Mr. Fairchild, who is making a good recovery from an illness which he suffered prior to his recent return from Europe, there is no question of the hearty support which he would receive should he enter the field. Not alone in Otsego, but in Chenango, Delaware and Broome counties, where he is not less well known than at home, leading Republicans have already requested him to make the canvass, assuring him zealous support should he consent to do so.

The record of Mr. Fairchild during the long period of his service would amply justify him in asking again the support of his constituents. Not only on the floor of the house has he done excellent work, but on many of the important committees, one of them that of Ways and Means, the most important of all, and on which he served during the whole period of the World War, being thereon the ranking Republican. On this committee his wide experience, gained during his long period of service, and more than all his unusual business ability and extensive and accurate knowledge of the important financial problems of the nation made him of greatest service; and it is known that leading statesmen of both parties would welcome him again to the floor of the house.

Evidence of this outside the party which so worthily he has represented is shown in the remarkable letter written last summer by Secretary McAdoo, and which at that time was widely printed throughout the district and country as an unusual tribute from an opponent in politics who none the less recognized his usefulness to the nation. A second letter of similar character was by remarkable coincidence received by Mr. Fairchild yesterday from Judge McCloud, who is head of the Interstate Commerce commission and in politics a Democrat and who regrets that our fellow townsman is not in congress now. "To heaven Congressional thought and action by the abundance of your ripe experience and judgment."

What Mr. Fairchild's own decision will be is not known, but nothing more fortunate could happen to district and nation than his return to the house in which he was for twelve years a leading figure.

## IN THE COUNTY COURT.

**Sheldon Jury Disagrees—Walling and Swanson Sentenced.**

At Cooperstown, at 9 o'clock last evening, the jury in the case of H. W. Sheldon of Oneonta vs. the American Express Railway company, an action to recover injuries for a carload of horses injured in transit, came in and after announcing that there was no possibility of agreement, was discharged. The attorneys for the plaintiff were: Gibbs, Holmes & Holmes; and after the jury was discharged Clarence E. Holmes and Everett D. Holmes started for Oneonta by auto and later were the victims of the tragic accident near Milford in which the former was killed. A more complete account appears in other columns.

On Thursday, Bert Walling, who had been convicted of the illegal possession and sale of liquors, was sentenced to 60 days in the county jail and to a fine of \$200, with 100 additional days in jail in case the fine was not paid.

Benjamin Swanson, who has been in jail for some time, and who was charged with breaking into a freight car at Oneonta, pleaded guilty, and was sentenced Thursday to Auburn State prison for not less than a year and not more than two years.

## SUPERVISOR SHAW RESIGNS.

Morris Member of Board Accepts Position with State Comptroller.

John W. Shaw Jr. has tendered to the town board of Morris his resignation as supervisor of that town, to take effect December 5. The resignation covers not only the present term but the two-years' term commencing January 1, 1920, to which he was elected last November.

Mr. Shaw states that although the matter was not definitely settled, his action is taken at this time because he has under contemplation the post of auditor in the income tax bureau of the state comptroller's office at Albany. On Wednesday he received instructions to report to the comptroller, who under the income tax laws is establishing a corps of auditors to have charge of the work.

While Mr. Shaw's action will come as a surprise in the county and in his home town, all will rejoice in this recognition of the ability of one of the best qualified men who has ever sat in the county legislature, where he has represented the town of Morris for 12 years. He has also acted as county treasurer for two terms, and as postmaster in the village of Morris, a post he held with distinctive satisfaction to all for 17 years and one month. He will retain his residence in Morris.

## ASK REPEAL OF DOE-KILLING.

Experience of Season Convinces State League of Its Necessity.

After one season of experience, during which there was greater slaughter of deer, and particularly of does, than ever before in the state of New York, the State Fish, Game and Forest league, now in session at Syracuse, is convinced that a continuance of the present plan will in a few years more result in the absolute extermination of the deer in the Adirondacks.

The league will introduce resolutions requesting the legislature to repeal the doe-killing law and to limit the season to two weeks, and asking for a change in the grouse season so that it will open November 1, for thirty days, instead of having the month of October the open season as now. In addition a resolution will be offered urging that the bass season open July 1, instead of June 15. Another resolution will declare it the wish of the league that steps be taken to preserve and renew forest areas of the state. Nearly thirty of thirty-five hunting clubs, fishing associations and sportsmen's clubs are represented.

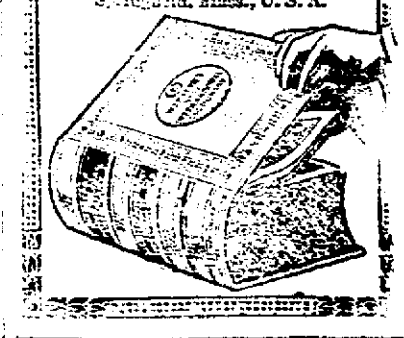

Purity, strength and delicious flavor characterize all of Baker's flavoring extracts. advt 5t

## ELKS MEMORIAL SERVICES.

Tribute to Fallen Members Sunday Af-  
ternoon at Oneonta Theatre.Sunday afternoon, at 2:30 o'clock,  
the annual Memorial services of One-  
onta lodge, No. 1312, B. P. O. E., will  
be held at the Oneonta theatre and  
as usual there has been a demand for  
seats, indicating that not only will the  
resident membership be present, prac-  
tically in its entirety, but that many  
non-residents will be in attendance as  
well as numerous friends of members  
of the organization.The program will be impressive. It  
has been arranged with painstaking  
attention to details by Edward M.  
Ronan, the exalted ruler. The Mem-  
orial address will be delivered by Rev.  
Dr. John of the First Methodist  
church. The musical program will be  
in charge of James Keeton, Jr., as di-  
rector and the Elks' Male Choir will  
participate; the numbers including  
"God Is Love," "The Lost Chord,"  
"Lead Kindly Light" and "Ten Thou-  
sand Times Ten Thousand." The Elks'  
Male Quartet will sing "The Vacant  
Chair," while "There is a Blessed  
Home" and "Blessed Are the Depart-  
ed" will be rendered with solo, duet  
and chorus.Members of the order desiring to  
secure tickets for friends may still  
secure a limited number by applying  
to either Exalted Ruler Ronan or  
Past Exalted Ruler Van Wile today.

## CHARLES JENNINGS MEMORIAL.

Tablet Is Dedicated For Deceased Sol-  
dier at Afton Episcopal Church.The first Sunday in Advent was ap-  
propriately observed at the Afton  
Episcopal church last Sunday when a  
memorial tablet to Charles S. Jen-  
nings of Afton and Oneonta was de-  
dicated. The tablet was provided by  
Mr. and Mrs. Dan Jennings of this  
city, his parents, and friends. Pri-  
vate Jennings passed away during the  
influenza epidemic at one of the United  
States army camps.The tablet is a solid oak shield let-  
tered with the creed, "I believe in  
God, etc." under which is inscribed  
his signature and the year he died,  
1918. Oak seemed symbolical of the  
strength of youth in the life he dedi-  
cated to his country.In connection with the memorial  
services, Lu B. Cake, Afton's well-  
known poet, offered the following  
word tribute:In Flanders' field when poppies bloom,  
To tell a world-war soldier's fate,  
Here flowers will grow around a tomb.  
The same sad story to relate.Upon the Living Church's wall,  
A fadless witness tablet tells,  
He dies not, though in death he falls,  
Whose "I believe" outlives farewells.

ing at 7 o'clock. Installation of of-  
ficers. Secretary.

## Going Up Fool Hill.

Many of us have made the trip and  
many more are still climbing, but I  
have stopped a lot of people before  
they reached the top and tumbled  
over. In doing it, through my many  
little warning articles in the Oneonta  
Star and which are intended to make  
thoughtless people think, many have  
misunderstood me and failed to see  
the meat in the coconut, by carelessly  
looking upon me as similar to a  
patent medicine advertiser. Well,  
they're fooled, for it has been done  
in the advancement of a broad live and  
let live movement, backed and encour-  
aged by Uncle Sam, has been in the  
best interests of Oneonta and its peo-  
ple and with no uneven gain or ad-  
vantage to any one man or clique of  
men. Hoping that this little plain and  
true statement will make so-called  
thinking people see the hole in the  
ladder and more fully understand me,  
I am, very truly yours, the safe and  
sane Oneonta Building and Loan as-  
sociation. advt 11

## BENEFIT FOR ACTOR'S FUND

To Be Given at Oneonta Theatre  
Tuesday Evening, Dec. 16, with Lo-  
cal Musicians Appearing and At-  
tractive Picture Program.At the request of the local commit-  
tee recently named by Daniel Froh-  
man and consisting of Hon. Charles  
Smith, E. W. Elmore, Edward M.  
Ronan, J. P. Thompson, Mayor A. E.  
Ceperley and H. W. Lee, Manager Ed.  
R. Moore of the Oneonta theatre has  
consented to give benefit perform-  
ances on Tuesday afternoon and even-  
ing, Dec. 16, one-half of the receipts  
to go to the Actors' Fund of America  
and establish that worthy fund upon  
a permanent and secure basis and as-  
sure the perpetuation of the home for  
the destitute and superannuated ac-  
tors.Oneontans, in common with other  
citizens, cannot but recall and with  
keenest pride and gratification the  
spirit and manner in which the mem-  
bers of that profession responded  
when the nation was in peril, many  
of them devoting all their time to pro-  
moting the sale of Liberty bonds, while  
hundreds of them left lucrative posi-  
tions and went across to provide  
amusement and recreation for the  
boys at the front, receiving either no  
remuneration or the dollar a day  
which permitted their being transport-  
ed across the water for the purpose.  
Their heroism, often giving their  
plays under shell fire and always con-  
tributing to the pleasure of the sol-  
dier boys, affording one of the bright-  
est chapters in the history of America  
in the war.Throughout the country the cities  
are providing in some way for the  
quota asked of them to create a mod-  
est Actors' fund. This city has been  
asked to provide \$200 and that cer-  
tainly is a reasonable sum. All who  
have considered the project deem it  
a worthy one and think the city  
should respond.Accordingly Manager Moore will ar-  
range one of his best programs, se-  
curing some special films for the day  
and arrangements will be made for  
some musical numbers by the best of  
local talent and the tickets will be  
priced at the popular sum of 25 cents  
so that all will get their money's  
worth and at the same time be con-  
tributing a bit toward the fund and  
helping to keep Oneonta to the fore  
in all worthy projects. Further an-  
nouncement of the program to be  
given will be made in later issues.  
Meanwhile it would be an excellent  
idea for those so inclined to be plan-  
ning some theatre parties and the like  
that the theatre be filled at the three  
performances—one in the afternoon  
and two in the evening.

## COUNTY DAIRYMEN'S LEAGUE.

To Meet at the Municipal Building  
This Afternoon at 2 O'clock.The annual meeting of the Otsego  
County Dairymen's league is to be held  
at the Municipal building in this city  
this afternoon at 2 o'clock and a large  
attendance of the officers of the various  
leagues throughout the county is  
anticipated. Officers of the county  
league are to be elected for the com-  
ing year and various matters of in-  
terest to league members will be dis-  
cussed. It is hoped that all of the  
delegates recently elected to the com-  
ing convention of the league in Jersey  
City will be present and it is not im-  
probable that matters to be consid-  
ered at that gathering will be debated  
at the meeting today.

## GRAND OPERA AT HIGH SCHOOL.

Athletic Association Guarantees Gala  
Occasion December 17.Many Oneontans will recall Dr.  
Henry Fleck of New York city and  
the unique concert company, includ-  
ing both orchestra and soloists, which  
he conducted in a tour through the  
state in the interest of the Liberty  
Loan. The program rendered under  
his auspices at the High school in  
February, 1918, was in a class by  
itself.Dr. Fleck, whose connection with  
the American Art Education society  
of New York city is well-known to all  
of our local music lovers will bring a  
quartette of Grand Opera singers of  
the first magnitude to the Oneonta  
High school, Wednesday evening, De-  
cember 17.No scenery or costumes will be  
used, but the plot will be developed  
by a speaker and the scenes and  
music illustrated by artists who have  
been chosen because of their ability to  
interpret and sing the roles of "II  
Trovatore," which is the opera to be  
given at the High school. The  
familiar scenes and music will be en-  
acted as done in Grand opera.The part of Leonora, the heroine,  
will be in the hands of Miss Margaret  
George, soprano, a young Canadian  
artist who studied in Italy and made  
her debut in "II Trovatore" at the  
La Scala opera house in the role of  
Leonora. She was with the Scotti  
Opera company for two years, and  
then with the Gallo company up to  
this year, when she decided to remain  
in New York, making one tour in con-  
cert work.This splendid concert is to be given  
under the auspices of the High School  
Athletic association. Single admis-  
sion, 50 cents; balcony, 75 cents.

## Health Lectures Close.

Dr. Guerard, of the state health  
department, closed his lectures on  
venereal diseases last evening at the  
Y. M. C. A. hall with a plain talk to  
men and young men. There was a  
good attendance and all the men list-  
ened with interest to the address,  
which was illustrated by slides. The  
opinion has been expressed that Dr.  
Guerard's visit here has been of much  
benefit in many cases. His associate,  
Dr. Croft, lectured to women on Wed-  
nesday night.

## SECOND CONCERT OF COURSE

Entertainment by American Concert  
Grand Quartet Pleases Large Audi-  
ence—Every Seat Filled and Ev-  
erybody Delighted—Clever Miss  
Caverly Is Entertainer.The second entertainment of the  
Oneonta Normal and High School  
course was held last evening at the  
High school auditorium. There was  
not a vacant seat in the house, every  
ticket having been sold early in the  
day, and even for those who took their  
chances later that some subscribers  
would not appear there were scant ac-  
commodations in chairs placed in the  
lobby. Altogether there is evidence  
abundant that the course for 1919-20  
will be the most successful ever given  
alike in attendance and in the quality  
of the entertainments.The program last evening was given  
by the American Concert Grand Quar-  
tet, composed of four singers of ex-  
ceptional merit—Arthur Myers, 1st  
tenor; Clifford Whitcomb, 2nd tenor;  
Henry Kelly, 1st bass, and L. McAdam,  
2nd bass, with Miss Mildred Caverly  
doubling very satisfactorily as reader  
and accompanist.The program began with the tri-  
umphal march from the opera of  
Aida by the company, wherein the  
power and range of the four voices  
was shown to fine advantage. Other  
numbers in sentimental and humorous  
vein were followed by two Italian  
duets, the first from the Barber of  
Seville and the other, "Sole Mia," by  
Messrs. Kelly and Myers. Mr. Mc-  
Adam, a basso of remarkable range  
and volume of tone, followed with  
"Jolly Old Rover," and "Old Black  
Joe," which as transposed for him  
was sung a full half octave below this  
song as usually presented. Other excel-  
lent, varied song groups were present-  
ed by Messrs. Myers and Whitcomb,  
and the various musical numbers were  
very pleasantly interspersed by the  
readings, mostly in humorous vein,  
by Miss Caverly.The concluding numbers were a  
noble presentation of Verdi's "Miser-  
ere," and an appropriate finale, "Till  
We Meet Again," by the company. Al-  
together the entertainment was suf-  
ficiently varied to suit every taste, and  
of merit sufficient to gratify the crit-  
ical.The next entertainment in the  
course will be given on Friday evening  
next by Davies' Light Opera com-  
pany.Fountain pens and stationery, as well  
as books, are lines in which the Cor-  
ner Book store excels. Kenneth W.  
Goldthwaite, successor to Henry  
Saunders. advt 21

## HOOSIER

— the Kitchen Cabinet that saves miles of steps

"My best Christmas gift---  
more leisure all year"VERY home should have its Hoosier, for every  
housewife deserves the many benefits it brings.  
And there's no more fitting time to get it than at the  
Christmas season.The gift of a labor-saving Hoosier expresses the in-  
timate thoughtfulness every home-maker appreciat-  
es. It makes her work easier and more enjoyable  
all year. It makes her workshop more attractive and  
adds to the pride of home.Surrounded by many patented conveniences found  
only in the Hoosier, the housewife sits at her workinstead of walking to and fro. Thus she saves miles  
of steps.Because utensils and supplies are centralized in the  
Hoosier, much work is saved. By preventing waste  
in measuring and mixing, foods are saved.If your kitchen still lacks this greatest convenience  
when Christmas has passed, come and see a demon-  
stration. But don't hesitate to let it be known that  
a Hoosier for Christmas would please you most.  
Hoosier prices are moderate. The terms are con-

### MRS. W. F. EGGLESTON.

Social Representative of Million Dollar Drive for Alfred University.

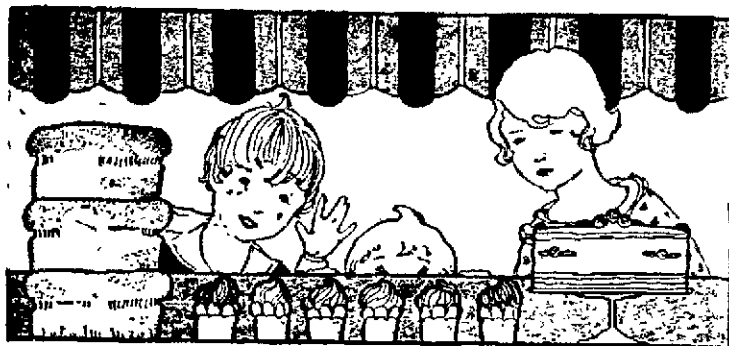

The nation-wide drive for \$1,000,000 for a one million dollar endowment fund for Alfred university, located at Alfred, New York, took a local aspect today when it was announced from the New York headquarters that Mrs. W. F. Eggleston of Oneonta, a former student of Alfred, had been appointed a member of the local committee.

"Alfred university is distinctive in that since its foundation eighty-three years ago, it has maintained a policy of catering particularly to the student of moderate means," said Dr. Booth Colwell Davis, president of the college, in a letter to the committee. "Not only are poor boys welcome, they are eagerly sought, it being the theory and policy of the faculty that the economic future of the nation depends upon the degree of education which the struggling youth attains. The courses at Alfred are on an exact par with those offered in the largest and best educational institutions in the United States."

### FRIENDS OF B. E. SWART

TO THE NUMBER OF 100 GATHER AT TESTIMONIAL DINNER

Sumptuous Feast Admirably Served at Windsor Hotel—Event Attesting Esteem for Popular Proprietor. — Happy Occasion Ends in Gloom Over Death of C. E. Holmes Esq.

Since the old Central hotel in this city lunched there has often been expressed a desire on the part of numerous citizens that some formal manifestation of their appreciation be given Mr. Swart for the admirable manner in which he met the emergency thrust upon the hotel and for the clean and creditable manner in which the hotel has been conducted. Mr. Swart has, when interviewed upon the subject, expressed a disinclination to anything in the form of a testimonial dinner at which laudatory reference to the hotel or his management might be anticipated. Recently, at the opportunity of a delegation of his friends who waited upon him, he consented to serve a Business Men's Luncheon, at which his friends who wished might gather and dine together with something in the way of entertainment provided if they so desired.

Such was the nature of the dinner given at the hotel last evening and at which some hundred of his friends—all that the dining room could accommodate without congestion—were seated, all of whom found keenest satisfaction in the event, none having been importuned to attend in any way. True to his reputation, Mr. Swart served a dinner of surpassing excellence which came on piping hot and was served in a manner most creditable. The menu was an elaborate one that permitted of no profit at the modest price named by Mr. Swart himself and one which in the eating was most satisfying to all. Even to the sponge cake served with the ice cream it was the Windsor "brew" and it was surpassingly good.

Following the feasting, cigars, "Doyle's Ten," and cigarettes were passed. Mayor Ceperley, who presided, then made a brief speech in which he said that he could not break faith with the guest of honor, but in a sentence or two said that those present would be pleased to have him say that the city remembers with keenest appreciation the untiring efforts made to care for the traveling public and see that none avoided the city because of lack of accommodations here, of the record of the house during his ownership as free from stain or discolor and of the esteem and regard in which Mr. Swart is held by a wide circle of friends. Others may come and go, but he keeps on in the even tenor of his way conducting a first class hotel and catering successfully to a large and increasing clientele which includes many of the traveling salesmen who, true to an old associate and an old friend, are steadfast in loyalty to the Windsor.

During the dinner many songs were sung and a very amusing "stunt" was introduced when Messrs. D. W. Orcutt and Fred and Clyde Eresce, impersonating Mine Host Swart, Mayor Ceperley and W. A. Kelly, presented by L. L. Gardner, appeared and after some discordant chords rendered a fine selection. They were thrice recalled. Jerry Wilson led in the songs with Ernest Bolton at the piano, the latter kindly donated by W. W. Howland, the Chestnut street music dealer.

Following the brief remarks of the Mayor, there was thrown upon the screen an interesting collection of views of "Old Oneonta," together with some or more recent date, including one of Mr. Swart snapped in front of the hotel, which was greeted with applause and spontaneously the throng struck up "For He's a Jolly Good Fellow," which was sung with a vim. Clarence Hammond, manager of the dining room at the Carlton at Binghamton, a long time friend of Mr. Swart, who came to attend the dinner, was then called upon to voice the feelings of the hotel men of the state. He spoke happily of Mr. Swart and of the regard in which he is held by the hotel men and the commercial men and said that he would ask those present to drink to the health of "Best Ever" Swart, which was done with enthusiasm.

Miss Louise Hinds of Richfield Springs, the talented reader, was then announced and the throng was keenly enjoying her clever selections when intelligence reached the assemblage of the motor car accident in which Clarence E. Holmes esq., a relative of Mr. Swart, lost his life, to which reference is made elsewhere. Mayor Ceperley at once announced the sad news and before dismissing the throng voiced the deepest sympathy that would be felt for the stricken family. It was a sad ending for what would otherwise have been one of the happiest of occasions.

### WANTED—BY LULU, HER MOTHER

Girl Teaching Here from Industrial School Can't Locate Parent.

When little Lulu Patrick hopped off the U. & D. train last evening, she was disappointed at not being able to locate her mother, whom she had come 125 miles to see, but was soon made happy again when C. E. Higgins, of the Blue Lane Taxi, took her to his home on Main street and Mrs. Higgins gave her a good hot meal.

Lulu, who appears to be about five years old and has blue eyes and light hair, carried with her a candy box containing some cookies and apples. Inside the box also was a letter which she had been told to give to some person when she got to Oneonta so that they would know who she was and where she was to go. But when she handed out the letter, the address on the envelope had been torn off.

After waiting at the station for a few minutes and no one having appeared to claim the little girl, Mr. Higgins offered to take her to his home, until her mother could be located.

The letter she carried read as follows:

"Dear Mrs. Patrick:  
"Am returning Lulu. Kindly let me know of her arrival. Think she will enjoy being with her mother. She has been very well except chicken pox, from which she recovered."  
"Sincerely,  
"Ida M. Wharton, Supt."

The letter was written on stationery of the Watts de Peyster Industrial Home and School for Girls at Madalyn, Dutchess county.

Mr. Higgins drew from the girl that her father was dead but that her mother lived here. She said she had been badly treated at the industrial home, and exhibited a scar over her nose, where she said she had been hit by a stick thrown by one of the attendants.

Although Mr. Higgins said he would be glad to have the little girl in his home for a couple of weeks, declaring she was a bright youngster, he would be glad to hear from the mother. His phone number is 40-1.

The girl wore a white toboggan, a brown coat, and a blue dress.

#### Gift to First Methodist Church.

The First Methodist church of this city has recently been presented with a very fine stereopticon with all its attachments and accessories by one of its members and it will be used for the first time on Sunday evening when Pastor Johns will deliver a lecture on "A Visit to Eastern and Southern Asia." The instrument is intended to be of use along educational lines and can be made especially effective in instructing the young, especially relative to the great missionary work of the church. It will also be utilized for Sunday school work and with the young people.

#### WAR-TORN FRANCE IN FILMS

Put On in Paris by Miss Anne Morgan and Others of American Committee.

Paris.—"The Heritage of France" is the title of a film produced under the auspices of the American committee for the devastated regions of France, in which Miss Anne Morgan, Mrs. Stillwell and other prominent Americans are active.

The picture was thrown on the screen for the first time at the Champs Elysees theater in the presence of Hugh C. Wallace, American ambassador, and Mrs. Wallace; A. M. Thackeray, consul general, and other members of the American colony.

The film depicts the terrible ravages wrought by the war. It is a work of collaboration by Harry D. Lachmann, an American painter; M. Gemler, director of the theater, and Wythe Williams, an American correspondent.

**Crystals That "Healed"**  
"Healing" is a phenomenon observed in the mineral kingdom, crystals being occasionally found that have been broken and afterward reunited through chemical or mechanical action. A century and a half ago Sir David Brewster called attention to healing in glass, and at a recent meeting of an English microscopical club pieces of heated glass formed a novel exhibit. A magnifying glass had become cracked while in use in the usual metal ring mounting. The ring was tightened up, and the broken surfaces became gradually attached or healed. Another piece of glass had been cracked and afterward clamped, and the cracked parts had not only become firmly joined but the point of union was to be detected only with difficulty. The glass, however, appeared to be not quite as strong as before.

## YULETIDE BUSY TIME FOR CUPID

Some Christmas Love Superstitions, Customs and Practices in the Old World

### PURSES FOR POOR BRIBES

Money Collected and Presented in a Way So as Not to Offend Girls—Flowers Used in Proposals by Shy Young Natives of Alps.

Good St. Thomas, serve me right And send me my true love tonight, That I may give upon his face, Then him in my fond arms embrace.

After placing a piece of holly under her pillow, many a girl, in the north of England especially, repeats these lines to herself before retiring to rest on Christmas eve, according to a writer in London Tit-Bits.

Cupid plays an important part in many of the superstitions and customs that are still extant at this season.

Another queer custom in the north, although it is not now so prevalent as it was, is that of gathering maidens' purses. The money for these purses is collected some weeks before Christmas from the inhabitants of the mining towns, and they are given as marriage portions to the poorest among those girls who are soon to be married. On Christmas eve a full purse is quietly thrown in at the girl's window, so that her feelings shall not be wounded by an ostentatious distribution.

A Christmas practice among superstitious girls who wish to dream about their future lovers is that of abstaining from food or drink or speech during the whole of Christmas eve. Then, after all the family have retired, they make a cake of flour, salt and water, called a "dumb cake." This they eat just before retiring to bed, in the belief that their somewhat indigestible supper will cause them to dream of their future husbands.

In the Alps there exist several charming Yuletide customs of proposing marriage by the language of flowers. If a girl accepts a bouquet of edelweiss from a man during the period from Christmas day to New Year's eve the action denotes that she accepts him as her future husband.

Another Christmas custom in Switzerland is for the young man to place a flower pot containing a single rose, and a note on the window sill of the girl's room when she is absent from home. He then waits for a reply. If the maid accepts the flower before New Year's eve, then the young man boldly enters the house to "ask papa." If, on the other hand, the rose is not touched, but is allowed to fade away, the proposal is rejected without a single word of love having been exchanged between the couple. This is a useful custom for bashful bachelors!

In Sardinia Christmas wooing is far more complicated. If a Sardinian father has a marriageable daughter, the would-be suitor applies to him for permission to speak to her by means of a species of telephone that has been in use for the purpose for centuries of Christmas.

It is a long string with a wooden knob at each end. The girl drops one knob out of her window and, the shutters being closed, places the other knob to her ear. Down below her would-be lover pours words of undying devotion into his knob!

On every New Year's day in Roumania a fair of marriageable girls is held. The girls are all drawn up in one line and the men in another, with no parents of both behind them. If a young man likes the look of any particular girl he steps out of his line, goes up to her and enters into conversation. If he is favorably received by the girl, his parents and her parents compare notes as to the marriage settlement and similar practical matters.

Many quaint superstitions are associated with the festive season in various parts of Britain. In Hertfordshire the wearing of new shoes on Christmas day is considered to be very unlucky; while in other parts it is thought to be bringing ill luck to allow any new leather in the house during the whole of Christmas week. Some folk say that "a green Christmas makes a fat churchyard," but in Devonshire they say that a green Christmas makes a prosperous year.

Superstitious people assert that one should be careful about the choice of the holly for the decorations. Part should be smooth and part prickly. Then, providing both kinds are carried into the house at the same time, all will be well. But should the prickly variety be taken in first, then the husband will rule the household during the coming year; if the smooth is brought in first the wife will be "top dog."

**Earth's Life Zones.**  
Biologists have divided the entire surface of the earth into life zones, each zone having much the same flora and fauna wherever found. The life zone in a given locality depends upon both latitude and elevation. Thus the Canadian life zone, which has everywhere plants and animals similar to those of Canada, is found in the high Rocky mountains as far south as northern Colorado and northern New Mexico.

**Costliest of Books.**  
It is said that the highest price ever realized for a book, was paid at an auction sale in London recently, for a book of private devotion, a "XIV Century Book of Hours" formerly the property of Jeanne D'Alençon of Navarre, which brought \$39,000.

### SENTENCE 2 FOR LURING GIRL

Man and Woman Given Limit in Punishment by Judge in General Sessions.

New York.—Declaring the law in such cases could not be too severe, Judge Wadhams in general sessions, sentenced Kate Mobler, 21 years old, of 276 East Third street, and William Finkel, 21, of 216 West Seventeenth street, to nine and ten years, respectively, in state's prison on an indictment charging them with luring Rose Bloom, 13 years old, of 280 East Third street, to the woman's apartment on April 4 last.

The girl said she met the woman in front of public school No. 183, Third and Lewis streets, as she was leaving school, and the woman took her to an apartment where she was introduced to Finkel.

**Pietists.**  
This religious sect was also called "Separatists." It was a sect of the Lutheran church which preferred private to public worship. The founder was Spencer of Leipzig and his home was called "Collegia Pietas," because his disciples met there. Ordained clergymen had no marked precedence and anyone was permitted to address the assembly, as among Quakers.

### Bull Dog Tries to Alter Court Decision

New York.—The testimony of a dog was ruled out by Magistrate McQuade, in court, when Rip, a brindle bull, attempted to convince him that he was doing a rank injustice.

Mrs. Charlotte Slincker appeared against Mrs. Carlos Linares. Mrs. Linares brought with her the dog, Rip. Mrs. Slincker declared that she raised Rip from a pup and that he wandered away from her home last November.

Magistrate McQuade ruled Rip was Mrs. Slincker's dog. Mrs. Linares handed over the dog and started to leave the courtroom.

Rip gave one forlorn look at his departing mistress and set up a howl. He pulled Mrs. Slincker off her feet and it required reinforcements to hold him.

**Napoleon and the Pope.**  
In 1809 on the 17th of May Napoleon issued a decree from Vienna declaring the temporal power of the pope to be at an end and incorporating Rome with the French empire. The pope retaliated by issuing a bill of excommunication against Napoleon, but his holiness' spiritual power could not prevail against the more forceful methods of the emperor. The pope was seized at the vatican and carefully conveyed away at midnight under the pretense that a life so sacred in the eyes of all Christians might not be endangered.

### HAWAIIAN BOOZE HOT STUFF

"Okolehea" is the Product of Island's Moonshiners—Deception Has Mule's Kick.

Washington.—The Hawaiian moonshiner has developed a product that is said to have a worse "edge" than any produced in continental United States.

It is "okolehea," which pronounced is not unlike the melody of a Swiss yodler. Prince Kalaninui says it means in plain vernacular "hot stuff," and has a kick that would put "old settin' hen," "stump rum" and "mountain dew" in the shade.

"Okolehea" is a gin made from the root of a "ti-plant" or "dracena." It is distilled in the mountains and as there are but two or three revenue agents for the locality, the Hawaiian moonshiner has a comparative easy time.

**History Repeats Itself.**  
Briggs and Fowler were talking of the great wars fought in the days when the world was considerably younger. "You know," said Briggs "it always seems to me that those old warriors were very much like our modern financiers." "What do you mean?" asked Fowler. "Well they were always investing some one else's capital, weren't they?"

## CHRISTMAS ACTS AS TONIC

Happy and Exhilarating Mental Spirit Has Good Effect on People, Declare Medical Observers.

Close observers in the ranks of the medical profession have noted one very interesting fact concerning the Christmas season—that it generally has a good tonic effect upon their patients. In explanation of this the London Lancet says that since Christmas has come to be regarded as a time for good cheer, a universal feeling of contentment and happiness is engendered at this time of joyousness, routine is for a while relieved, a certain freshness is given to the daily round, differences of opinion are sunk, and a charitable spirit prevails. Is it by the way, hoping for too much that the season of good fellowship should leave some lasting effect upon the manners and methods of all?

It may not be easy to trace exactly why this sense of exhilaration and well-being comes with the advent of Christmas, for the psychological factors concerned are not simple. But the main point is that the mental state does everybody good, and the annual festivity is just as excellent an institution as the prescription of the physician which gives tone and vigor to the struggle in life's race. There is no need nowadays, thanks to the good sense of the people and the counsel of their medical advisers, to moralize about the evils of a stupid indulgence in food, alcohol and tobacco on a festive occasion such as the present. Practically everybody realizes the great physiological advantages of being wise on a merry occasion and the disadvantages of being a fool.

Many more persons than formerly feel where use ends and abuse begins, and they act sensibly accordingly; and so far from it being a crime to make the season festive by enjoying, on a little extended scale perhaps, the creature comforts of life, some decided good is done to both the mental and physical health of the individual.

The festive season may, therefore, be welcomed which brings cheer to thousands, which induces the generous and charitable to brace the mental and physical functions of the community at large, giving it the opportunity of relinquishing its business and its worries for a time, to start again refreshed and ready for "the trivial round, the common task." The prescription "A Merry Christmas" is sound so long as the "signature" of good sense is observed.

## Importance of Good Health.

Good health of itself, to be sure, does not sum up the whole secret of personality. But it is a most important element, as you will presently appreciate when you adopt rules of living that result in a distinct bettering of your health. You will begin to feel more self-confident. You will attack business problems more masterfully. You will find it far easier to sway others by your personal influence.—H. Addington Bruce in Chicago News.

## Meaning of "Selah."

The word Selah, which occurs so frequently in the Psalms, is usually believed to be a direction to the musicians who chanted the Psalms in the temple. Matthewson, the great musical critic, wrote a book on the subject, in which, after rejecting a number of theories, he came to the conclusion that it is equivalent to the modern "da capo," and is a direction that the air or song is to be repeated from the commencement to the part where the word is placed.

## Bubonic Plague in Argentina.

A report from Buenos Aires states that the government of that country is sending a commission to the province of Jujuy for the purpose of fighting the epidemic of bubonic plague, which is reported to be serious. The Santiago dispensary reports 605 cases of typhus fever and 13 deaths.

## CAPTAIN MATLACK KNOWS NO FEAR

Daring Cavalry Leader Is Terror to Bandits on Mexican Border.

## ANSWERS THREAT WITH SHOT

Ability for Coping With Banditry Led to Speedy Promotion From Sergeant to Captain During Four Years.

San Antonio, Tex.—Capt. Leonard J. Matlack, commander of Company K, Eighth United States Cavalry, is today the most feared American that Mexican bandits have encountered on the Texas border. He is feared more than the Texas Rangers, who for years were the only official guardians of the peace in that remote country. His men are of the fighting, daring type, but Captain Matlack's desire to go it alone when handling difficult situations has struck terror to the hearts of Mexican evildoers who are learning not to commit offenses in country where he is known to be stationed.

When Captain Matlack went to Candelaria, Tex., four years ago, he was a sergeant. He took station with his company at a small, isolated community on the banks of the Rio Grande. They soon found themselves in a hotbed of banditry, which Matlack determined must be cleared.

Matlack found that the leader of the bandit crew in San Antonio was Chico Cano, a former captain in the Carranza army. Matlack visited San Antonio alone at different times and met Cano, informing him that unless he ceased his lawless practices he would meet a sudden death. It was not long after that Cano attempted a raid and got several hundred cattle. Matlack took up the trail, recovered the cattle, killed Cano and drove the cattle back into Texas.

In like manner he met and killed a brother of Jesus Renterias, the bandit leader who held the aviators, Davis and Peterson, in captivity, pending the payment of ransom money. It was Matlack who outwitted the Mexican bandits when he went alone to rescue Peterson and Davis and escaped with half the ransom money, inviting death for himself and the aviators.

## Takes Long Chances.

On one occasion Matlack and his men were surrounded by an overwhelming force of Mexicans. Instead of making a stand to fight, as the bandits expected, Matlack ordered a charge, rode down the Mexicans and killed 35 of their number. Matlack's men suffered one slight casualty.

Not long after this a cattle ranch near Candelaria was raided. Matlack and his men pursued and killed the Mexicans and recovered the cattle. Later Matlack went back to look for more cattle. While he was riding around the town a shot was fired from an adobe house. The bullet went wild. Matlack boldly kicked in the door of the house and killed the Mexican who had fired at him. In virtually every encounter with Mexicans Matlack has taken long chances, but he has always gotten his man.

## The Colorado River.

The Colorado is one of the great rivers of North America. Formed in southern Utah by the confluence of the Green and Grand, it intersects the northwestern corner of Arizona and, becoming the eastern boundary of Nevada and California, flows southward until it reaches tidewater in the Gulf of California, Mexico. It drains a territory of 300,000 square miles and, traced back to the rise of its principal source, writes C. A. Higgins, is 2,000 miles long. At two points, the Needles and Yuma on the California boundary, it is crossed by a railroad. Elsewhere its course lies far from Caucasian settlements and far from the routes of common travel. In the heart of a vast region fenced on the one hand by arid plains and on the other by formidable mountains.

## Forecasting Storms.

By means of what is believed to be a new scientific discovery, it is claimed that weather forecasts may be made with reasonable accuracy two weeks in advance.

As a result of research, conducted by a former chief of the weather bureau and a representative of the Smithsonian Institution, it has been found that there are rifts in the upper clouds of the solar atmosphere which cause a variation in the amount of heat radiated to the earth. It is said the investigators have discovered the period of time between the passage of a heat rift in the solar atmosphere and the appearance of resulting storms on the earth.

It has been found that at times these heat rifts persist for several months and that they have produced corresponding disturbances here.

Typewriter Used As a Pendulum. In the show window of a downtown typewriter concern stands an imposing looking clock more than six feet tall. It is attractive, but what especially invites the attention is the pendulum. The bob is unlike any other in the city, being a full sized typewriter. One that could be set up on a desk and put in active use.

The suspended typewriter swings to and fro all day long. Judging from the excellent time the clock keeps, the typewriter bob does its work faithfully and well.—New York Times.

Texas Schools Short 4,000 Teachers. Texas schools will open next month with a shortage of 4,000 teachers. The situation is the most serious in the history of the state's school system, according to officials. Low wages is given as the cause for lack of applicants for schools.

Charity at Christmas. There can be no holier sentiment attached to a gift on Christmas day than charity, for charity combines all that is good and tender in human ideal, impulse and emotion. There is a double joy in charity, for it blesses two. It not only gives happiness in the act itself, but it quickens and develops, for all after life, pure, precious qualities of mind and heart that are a well-spring of peace. Charity comes nearer to spanning the immeasurable space between the sin of this world and the holiness of heaven than any other blessing that mankind knows.

An Ideal Christmas which would really mean genuine good will among men is one in which none should be cold, hungry, shelterless or friendless—one in which they who have would think first of them who have not.—Christian Herald.

## COMPLETE CURE OF INDIGESTION

One Box of "FRUIT-A-TIVES" or "Fruit Liver Tablets" Brought Relief

WILLIAM GALE SHEPHERD

Old Chatham, Columbia Co., N. Y.  
"I was bothered with Constipation, Liver Trouble and Indigestion for three years; and tried all kinds of medicine with no relief."

"I was so bad I would have a dull, heavy feeling in the pit of my stomach; generally about three or four hours after eating."

"I saw advertised in the 'Troy Times' 'Fruit-a-tives' and sent to R. W. Seymour's drug store in Chatham and bought two 50c boxes. Before I had finished one box, I was relieved and now have no more trouble. I can eat anything I desire."

"I would advise anyone in the same condition as I was, to take 'Fruit-a-tives'; it is a God send, and I would not be without 'Fruit-a-tives' in this house."

# COUNTY HIGHWAYS PLAN IS ADOPTED

**Board of Supervisors, By Unanimous Vote, Approves Resolution Providing for Construction and Improvement of Otsego's Roads**

Cooperstown, Dec. 5. — The annual report of the Otsego County Tuberculosis sanatorium was received by the Board of Supervisors this morning and read by the clerk. The report is in the form of a printed booklet and contains a complete and detailed account of the activities of that institution.

A report of the committee on public health regarding the hospital was also received, an inspection having been made yesterday. The report states that the hospital was found clean and sanitary and that a cheerful attitude was noted between the members of the staff and patients. Smiles and sunshine is the motto. A number of alterations and improvements were recommended, among which is an increase in capacity from 24 to 38 patients, at an estimated expense of \$2,000. There was no criticism of the management and special commendation is said to be due Dr. Winsor, the superintendent, and Miss Sweeney, the nurse.

Mr. Hall, chairman of the committee on public health, offered a resolution appropriating \$12,000 for the support and maintenance of the hospital during the year 1920. This sum is to be used together with an unexpended balance of \$8,724.76 now in the hands of the county treasurer. The county treasurer is authorized to pay for salary of county nurse and expenses \$1,500; for repairs to buildings and grounds, \$1,000, and for maintenance \$18,224.76. The resolution was adopted.

Another resolution was offered by Mr. Hall and adopted reappointing John D. Cary of Richfield Springs a member of the board of managers of the Tuberculosis hospital for a term of five years.

A change in the method of securing printed blanks for the use of county officers was recommended by the committee on rules and legislation and approved by the board. Heretofore the contract for printing such blanks has been let to the lowest bidder. Each county officer is now authorized to procure such blanks as he needs for the use of his office.

Frank M. Smith offered a resolution re-appointing Victor L. Hoke county superintendent of highways for a full term. Mr. Hoke has been acting for several months under a provisional appointment. Resolution adopted unanimously.

Mr. Armstrong offered a resolution to invite Miss Hazel M. Foster, agent of the Otsego County Society for the Prevention of Cruelty to Children, to appear before the board December 10 for the purpose of conferring with the members in regard to the care of dependent children in various towns. The resolution was adopted.

The resolution and an act relating to the proposed county system of highways under section 20A of the highway law, which was a special order for this morning, was taken up.

There was a thorough discussion of several features of the act and Mr. McRorie moved that the vote be deferred until Wednesday, Dec. 10. Later, he withdrew his motion, however, and it was decided to take a vote at the afternoon session. All questions of the various members having been satisfactorily answered, the roll was called and the act adopted by a unanimous vote, 25 of the 27 members being present.

The board adjourned this afternoon until Monday at 2 p. m.

Following is the good roads resolution adopted today:

Act No. 11, Chapter 2, Title 2  
Entitled an act to provide aid to the towns in the county of Otsego, N. Y., for the construction and improvement of highways therein, designating such highways to be constructed or improved, establishing a system of town highways and regulating the construction of the same.

Passed by the Board of Supervisors of the county of Otsego this 5th day of December, 1919, a majority of the members elected to the said board being present and voting and 25 supervisors voting in favor of the resolution and no supervisors voting against the same, pursuant to the provisions of Sections 320 and 320A of the Highway Law of the state of New York.

Whereas, The Board of Supervisors of Otsego county did on the 17th day of November, 1919, duly adopt a resolution directing the highway committee of the said board, and the county superintendent of highways to prepare a map of a system of highways in this county pursuant to and under the provisions of Section 320A of the Highway Law and providing that such highways should include at least one-tenth (1-10) of the mileage of the total highway mileage in each township and that such map be submitted to the Board of Supervisors for its consideration.

And whereas, Such highway committee, in conjunction with the county superintendent of highways and with the town supervisor in so far as the highways of his township are concerned, have prepared such map in accordance with such resolution.

And whereas, Public interest demands that the following roads in the several townships in this county be improved at the joint expense of the several towns and the county pursuant to such provisions of such sections of said law, as shown on said map.

Sec. 1. Therefore, Be it resolved, That the said map and the county system of town highways herein mentioned and described be and the same hereby are adopted by the board as the map and county system of town highways, and that the said highways be improved by the said towns under supervision of the county superintendent of highways of the county and the highway committee of the Board of Supervisors of the county and the town supervisor of the town in which such improvement shall be made, and in accordance with the plans and specifications and estimates prepared by such highway officials.

Sec. 2. Be it further resolved, That the cost of such construction or improvement in such towns and county be apportioned by the Board of Supervisors of this county between such towns and the county as follows, viz.: The county shall pay seventy-five (75) per cent of the total cost of such construction or improvement and that the town in which such construction or improvement is made, shall pay twenty-five (25) per cent of such total cost of such construction or improvement in such town.

Sec. 3. Be it further resolved, That the total amount to be received from the county by any town in any one year on account of such apportionment, construction or improvement shall not exceed the sum of five thousand dollars (\$5,000.00).

Sec. 4. Be it further resolved, That the total cost per mile of such construction or improvement an amount not the county shall pay the proportion as herein provided shall not exceed the sum of five thousand dollars (\$5,000.00) except by special resolution of the Board of Supervisors of this county.

Sec. 5. Be it further resolved, That the county treasurer be and is hereby authorized and directed to pay to the supervisors of the several towns where such highways are being constructed or improved and amount not to exceed five thousand dollars (\$5,000.00) in the year 1920 as the county's share of the cost of the construction or improvement of such roads on the warrant drawn and signed by the county superintendent of highways of the county and countersigned by the chairman of the Board of Supervisors and if there be not sufficient

funds in the hands of the county treasurer with which to make such payments he is hereby authorized, empowered and directed to, in behalf of and in the name of the county, to borrow on the faith and credit of the county sufficient funds to make such payments and for and in behalf of this county as such county treasurer, and in the name of the county issue a note or notes, or certificate of indebtedness therefor.

Sec. 6. Be it further resolved, That an amount not less than one hundred dollars (\$100.00) for each mile of such road so constructed or improved in each or any town or towns be levied and assessed against the taxable property of such town or towns, and the county of Otsego each and every year by the Board of Supervisors for the maintenance and repair of such highways, the said amount to be apportioned between such towns and the county in the same proportion as herein provided for the construction and improvement of such highways.

Sec. 7. Be it further resolved that this act and resolution shall take effect Jan. 1, 1920.
